Curriculum Enhancement Day Special

A fantastic day was had by all of our students on Curriculum Enhancement Day. The whole school timetable was collapsed giving our students a chance to take part in trips, team building activities, talks and more. We hope you enjoy this special edition to take you into Half Term.

Don't forget it is an Inset day on Friday (students will not be in school on this day)

Here are a selection of photos that were captured throughout the day.

Our Year 7 students took part in our Dedication Day service at Lichfield Cathedral in the morning then had fun and games on Johnson Field with the Wise-Up team building team. It looks like they had a great time, taking part in over 20 different team building activities, and luckily the rain stayed away for them.

Year 8 students had 3 different activities they participated in. The Big Draw was an amazing piece of art which was created by their own bodies. The British Heart Foundation came to showcase their Restart a Heart campaign, giving students a look into CPR. They then took part in our STEM activity which involved them designing and creating a model car to move. Looks like they had a great day.

Year 9 had an action packed half day at Beaudesert, which involved Monkey Ropes, Caving simulation and much more. The rest of their day was based around PSHE. We had outside visitors come into the school talk to our students about real life situations. The teams from Prison Me No Way, Stand up to violence and RIOT (recovering from addiction), held a captive audience with our students which we hope they enjoyed.

A lot of our Year 10 students went on trip out of school which included The National Science and Media Centre, The Mad Museum, Standon Bowers and more. I think the most successful trip was our PE group who visited the Bear Grylls Adventure in Birmingham. Not only did they get to take part in some great activities the man himself, Bear Grylls was attending and the group got to meet him in person. Other students got to take part in various activities to discover future options and resilience. This including the Army, Mindfulness and RadioActive. All ways of developing self-confidence whilst having fun.

Year 11 students were invited to our career taster sessions from South Staffs College which included Media and Hair & Beauty, Army Careers and apprenticeship providers. They then took part in an English Mock exam.

As well as our Year 7 students, the Year 12 students also went to our Dedication Day Service which was a great success. Their afternoon was based on The Big Sex Talk which was a highly informative afternoon for them.

Year 13 was based around future intentions, we had over 20 Bridgebuilders come into the school to take part in mock interviews and host talks throughout the day.

We had a great day! We hope all of the students enjoyed themselves.
