

October 2026

Dear Parent/Carer,

Year 11 Data Report

Following the information evening last week, a **data report** is now available on the GO 4 Schools website* indicating how your child is progressing in their Key Stage 4 studies. It sits alongside the attendance, behaviour, timetable, and progress information on the website; unfortunately, it is not available on the app. Once on the webpage, the report can be accessed via icons as shown on the left-hand side of this letter. Select 'Reports' and then click on the report icon.

The grade data** included within the report shows current and projected performance against a target grade together with estimates generated by Fischer Family Trust (FFT). The 'projected grade' is based on the teacher's professional judgement and is the grade that is likely to be achieved in final examinations. As we progress towards the examinations, projected grades will continue to be updated in line with performance until 14th May. The 'progress indicator' is a comparison between the 'projected grade' and the 'target grade'. This indicates whether, at the time of generating the report, your child was above target, on target, working towards target (1 grade below) or below target (2 or more grades below). The 'current grade' is based on completed assessments and calculated by GO 4 Schools.

A student's target grade for a subject is based on estimation data generated by FFT, an independent non-profit organisation commissioned by the Department for Education. The target is defined as the grade that the student is targeted to achieve in Key Stage 4 examinations for that subject.

FFT provides us with subject specific estimates with three degrees of challenge; FFT 20% is used as the basis for our target setting, the estimates are based on progress seen in the top 20% of schools (high challenge). FFT also provides estimates based on grades achieved in 50% of schools (average challenge), and in the top 5% of schools (very high challenge). Potential individual performance is estimated based on how students of similar ability on entry (at the end of Key Stage 2) perform nationally. Similar ability is defined as similar prior attainment (usually Key Stage 2 test results), gender, and month of birth. Many of our students achieve higher than their target.

Following the trial examinations, results will be made available on GO 4 Schools, and you will have an opportunity to speak to your child's teachers about your child's progress during an on-line parents' evening on **3rd and 4th February**. In the meantime, if you have any queries, please contact their form tutor.

For additional information about the Key Stage 4 curriculum please see the 'Curriculum' section of the school website***.

Yours sincerely

Mr M Shaw – Assistant Headteacher Mrs J Critchley – Data Manager Mrs M Jennings – Achievement Leader

* See the GO webpage for access information: [GO 4 Schools - King Edward VI](https://www.go4schools.co.uk/schools/king-edward-vi)

**Please note that we are unable to provide you with grade information for the BTEC subjects due to ongoing modification of courses
